

Origin was founded 10 years ago when cousins Neil Ginger and Victoria Brocklesby found they could not get great aluminium folding sliding doors for their building projects.

Their ambitious solution was to create a company capable of manufacturing the UK's best quality doors, backed by uncompromising levels of service.

The ethos of a family firm still remains today, despite Origin being established as the UK's leading manufacturers of folding sliding doors.

Origin Frames Ltd, Sunters End, Hillbottom Road,
High Wycombe, Buckinghamshire HP12 4HS United Kingdom.

ORIGIN
EASIFOLD DOORS

uncompromising design & quality

space

Origin Easifold are the most beautiful folding sliding doors you can buy.

Their timeless aesthetics, superior engineering and premium quality are only part of their character.

Now use your imagination...

Imagine how your living spaces will be transformed. Imagine that there are no barriers between inside and outside. Imagine gorgeous natural light illuminating your life. Nothing else releases the potential of your home, and the space around it, quite like individually crafted Origin Easifold doors.

Suddenly, summer days are longer and winter days are brighter. In just a few moments relaxation is more rewarding and entertaining is more dramatic. At last every part of your home is yours to enjoy and savour.

Our insistence on uncompromising design and quality in every last detail makes them an investment you can rely on to bring beauty and relaxation into your home for many years to come.

craft

54321...it's as swift, smooth and simple as that.

A gentle push is all it takes to create your new living space.

The secret lies beneath each lightweight frame section where our unique free - glide roller system makes opening and closing an effortless experience.

peace of mind...

20
YEAR
GUARANTEE

Each bespoke Origin Easifold door is designed and manufactured at our impressive state of the art High Wycombe facility.

Exceptional care is taken in designing our doors for durability and long-term performance. Only ultra-high quality components, specially designed by us, are used in an Origin Easifold door. Every one of our skilled craftsmen takes pride in creating the best folding sliding doors money can buy.

That's why Origin Easifold doors are guaranteed by us to perform faultlessly for at least 20 years. Each bespoke door set comes with a unique serial number that guarantees the doors at the property for two decades. No other manufacturer of bi-fold doors guarantees their products for this length of time.

So, embrace your new lifestyle with the solid reassurance of our unrivalled guarantee.

...and relax.

Find out more

thermally efficient...

Your Origin Easifold doors will keep you warm when it's chilly, and cool when it's hot.

With a Certified U Value of 1.3* we surpass the British Building Regulation requirements by a significant margin, keeping your energy bills low and helping you 'stay green'.

Our uncompromising design has included the most advanced thermal breaks and weather tight seals, and our locking mechanisms ensure maximum compression for increased weather resistance.

Of course the Easifold doors are fully weather rated by British Standards.

*We've had our doors tested and independently certified with Triple Glazed Units, and we're well within the current Building Regulations L1 and L2, even with standard double glazed units.

DESIGNED
FOR THE
BRITISH
CLIMATE

cosily comfortable

Our Easifold doors combine sophisticated style and elegance with the very latest in high performance and high security multi-point locking systems.

secure

Manufactured and assembled here in the UK our unique 8 point locking system conforms to demanding, police preferred 'Secured by Design' standards.

Chamfered 20mm linear bolts offer smoother operating when engaging the lock, as well as giving maximum compression for increased weather resistance. Add deep throw 25mm security hooks - the deepest engagement available on the market today - and the lock delivers the best in both security and weatherproofing.

The weakest point of a locking system is often the cylinder. Our combination of solid cast Yale security handles with high performance fixing bolts and a British Standards accredited Magnum security cylinder, proven to protect against snapping, picking, drilling and bumping, offers a proven defence that is second to none.

Our unique vertical locking shootbolt solution completes the full quota of impressive security features,

while a stainless steel faceplate and a twenty year manufacturers warranty ensures durability and resistance against all the elements.

The hinges of a door are often overlooked as a security weakpoint. Not so on an Origin Easifold door, which is designed to withstand attack and offers little opportunity for even the most determined intruder.

The strength and integrity of the door profile itself is also a crucial consideration, so we have worked hard to strike the right balance between size, strength, and aesthetics to produce door designs that look beautiful yet perform flawlessly to the highest security standards.

Finally, a door can only be secure if installed correctly. So you'll be glad to hear Origin's installation partners have been chosen for their rigorous attention to detail and workmanship of the kind that guarantees your absolute safety and security.

by design

You've thought long and hard about your bi-fold doors. You've decided what layout and configuration you want. And more importantly, when you want them.

The way we look at it, you should be in charge of your own deadlines. And that's what "Your lead time, NOT ours" is all about. So, thanks to a major investment in our factory workshop, we can now provide our doors practically on demand.

True, most people plan their installation a number of weeks ahead. But if you're in a hurry, we can now fulfil your order in a matter of days in any one of our popular colours.

More recently, we have been able to include our three wood grain effects in the 'Your lead time, NOT ours' scheme, as well as our striking dual colour choices on a slightly longer delivery timescale.

It's the fastest and most flexible service of any company in the door and window industry. And it's yours with Origin Easifold doors.

Find out more

low

Origin Easifold doors sweep away the boundaries between the inside and the outside of your home.

Low threshold designs allow for equal floor finishes inside and out. There are two options available; weathered and non-weathered.

Visually, the effect is stunning. Practically, it creates one space out of two for the ultimate use of your space at home.

threshold design

Find out more

Nothing is more important than safety and comfort in your home. That's why we've designed them into every Origin product.

The Easifold door comes with a bespoke 'finger safe' gasket between each door leaf, which ensures that even when they are fully open and folded to their maximum extent, there is no gap for little fingers to get trapped in.

Cleverly the lead door is prevented from slamming or being caught by gusts of wind by a strong magnetic stay which holds the door in the open position.

The threshold design allows the bottom track to be encased in the floor and hides away the free-glide roller system to prevent little fingers from getting trapped

All in all, a unique combination of safety features.

safety first.

always.

low maintenance. no worries.

We think you should be able to enjoy your bi-fold doors without the worry of time consuming and complicated maintenance.

The nature of bi-folding doors demands precision design and engineering, making timber and UPVC unsuitable materials for maintaining alignment over the lifetime of the product. Our high grade aluminium is our material of choice because it offers the right combination of strength and weight, allowing for a narrow, more aesthetically pleasing frame.

Origin Easifold doors are finished with the highest grade, longest lasting powder coating available, removing the need for periodic painting and maintenance. This hard wearing finish protects against scratches and colour fading, whilst maintaining the doors original good looks.

Our concealed running system is protected from the elements, ensuring the smooth gliding action of your doors for a lifetime.

now for something different...

We realise that not all houses are the same. Our UK based design teams are here to assist you, your builder and your architect to design the ultimate bi-folding door set up for your home.

Bays... Corners... Flexibility...

There are instances where a conventional door design is perfectly suitable but in the case that your room layout is slightly more unusual, we will have a configuration to suit your room – whether it be a corner set of doors at a 90° angle or even a bay set, your options on an Origin Easifold door are virtually limitless.

Turn a dark corner into a feature that floods your room with natural light to make even more of your living space.

So perhaps now is the time to see what's around the corner.

colours to suit your lifestyle...

Colour? The choice is yours.

Make a statement, or simply match the surroundings of your home. Contemporary or traditional. Whether your taste runs to the subtle or the outrageous, we've created a colour palette to satisfy even the most discerning of tastes.

Origin Easifold doors are coated with an ultra durable polyester powder manufactured by Interpon, the world leader. With all this choice and the scope to have doors with different colours inside and out, your options are virtually limitless.

Bespoke Colour options.

For those wishing to explore a wider range of options, take time to choose from hundreds of bespoke colours, making your Origin Easifold doors everything you ever dreamt of.

We are even able to meet your deadlines with this vast range. Just let us know your outline design ahead of time and confirm exact sizes when you are ready and we will manufacture according to your schedule, guaranteed.

Don't let your demanding deadlines compromise your design.

Here is a selection of some of our most popular colour options, available on the 'Your lead time, NOT ours' service. Order your doors in any one of these 10 popular colours and we will manufacture according to your schedule, guaranteed.

...or go with a natural look.

and handles that are ergonomic and timeless...

Handles do a simple job.

Origin Easifold handles just do it so much better. The handles of your Origin Easifold doors are its primary point of human contact. They must blend reliable functionality with tasteful aesthetics and real-world ergonomics. When you hold them, they must communicate safety and robustness.

That's why our handles are given the same attention to detail as every other component. Whether you choose premium stainless steel or colour co-ordinated ones, you can be assured of a contemporary handle which offers the same faultless service as the doors themselves.

popular door options...

The beauty of Easifold doors from Origin is that they offer an enormous choice of layouts and options to suit your home. **Over 150 different configurations**, in fact. Here are just some of the most popular which can be either open in or open out.

choose your configuration...

Choosing your Origin Easifold doors has never been easier.

If you know your rough opening sizes, find the nearest opening measurement in the table below and scan down the column to view your possible door options. Alternatively, if you're set on a particular number of doors and you are designing your opening around your doors, select your preferred number of doors in the left column and scan across to identify the opening sizes available to you. Remember every door we manufacture is bespoke and manufactured to your exact sizes and chosen configuration.
